

URGENT CORONAVIRUS UPDATE

DEAR PATIENTS:

Please read this notice as it pertains to health related precautions. Due to the severity of the circumstances unfolding with the Coronavirus and cases reported in Ohio, Kentucky, and Indiana, Tri-State Compounding Pharmacy & Kunkel Medical is taking extra steps to prioritize our patient's and employee's safety. We are especially concerned with minimizing exposure to our high risk patients, such as elderly and immunocompromised patients, who have to this point been the most severely impacted by the effects of the virus.

We wipe and clean our counters, cash register touchpads, and front door handles every hour. We are asking all of our patients and employees who are experiencing cough, sore throat, chest congestion, fever, and/or any other flu-like symptoms please do not come inside the pharmacy. We especially encourage these patients, our high-risk patients, or any other patient who wants to minimize their potential exposure to utilize our delivery service, Curbside delivery, or shipping service. For curbside delivery, our staff will bring out your prepared medications and over-the-counter items to your parking space at the pharmacy upon your request via phone call. Please provide payment information when calling if you would like to utilize any of these services to expedite processing. We also can provide patients with a 60 or 90 day supply on medications if insurance allows.

Please remember that we have a number of patients who are at a greater risk of being severely impacted by the virus, therefore, everyone's cooperation is much appreciated and is vital to help protect the safety of everyone.

SINCERELY,

Chad Thompson

Tri-State Compounding Pharmacy & Kunkel Medical
